Technical Lead (iOS and Flutter App Development)

📍 Noida, India

📞 9760740150

✉️ link.rajsharma@gmail.com

PROFILE SUMMARY

Core Competencies:

- A highly focused and committed professional with **10 years** of IT experience in mobile app development. Expert in technical architecture design, app development, team leadership, incident management, and cross-functional collaboration with UI/UX, product, and backend teams. Having experience in **BDD & TDD** methodology.
- Leading native and hybrid mobile app development, overseeing end-to-end delivery, app submission and handling apps with over **6 million monthly active** users.
- Worked on **45+ applications** and had rich experience in developing mobile **applications from scratch**. Developed apps in various industry domains e.g. FinTech, HRTech, healthcare, chatbots.
- Experienced in **iOS app, iWatch app & hybrid app development using Flutter** and Dart.

Key Achievements:

- Reduced the Foundit **app size by 30%** and **decreased launch time by 50%**.
- Improved **core data loading by 80%** in the PeopleStrong app using multiple contexts, **raising the app rating from 3.9 to 4.5** and reducing home screen loading time.
- Developed reusable components and wrappers for organization-wide use.
- Optimized **app performance** and user experience through **A/B testing** and adherence to **standard coding practices**. Possess good knowledge of **app security** and **app store guidelines**.

Professional Impact:

- Played a key role in strategic planning and decision-making processes, contributing to the overall success of the organization.
- Consistently delivered projects on time and within budget, meeting or exceeding client expectations

PROFESSIONAL EXPERIENCE

FoundIt (formerly Monster.com) Technical Lead

Noida, India
May, 2023 to Present

FoundIt Seeker App: Successfully added Flutter in existing native code and developed communication mechanism between native and hybrid app.

App store link: <https://apps.apple.com/in/app/foundit-monster-job-search/id525775161>

Zuno Internship App: Developed hybrid app architecture from scratch using Flutter in a small timespan. Developed reusable components and wrapper classes.

Play store link: https://play.google.com/store/apps/details?id=com.foundit.zuno&hl=en_IN&gl=US
